Verification Procedures

The U.S. Department of Education or Itasca Community College may select a financial aid application (FAFSA) for verification (34 CFR 668.51-61). This would require the college to obtain additional documentation in order to verify the information that the student and/or the parent gave on the Free Application for Federal Aid (FAFSA) prior to the disbursement of any financial aid funds. In most cases, the student and/or parent will be required to complete the IRS Data Retrieval Tool on the FAFSA at www.fafsa.ed.gov that will populate the income fields on the FAFSA directly from the IRS data. Another option is for the student and/or parent to request a IRS Tax Return Transcript directly from the IRS at www.irs.gov. A photocopy of a student and/or parent tax return is not sufficient for verification. Additionally, a “verification of non-filing” response may be required from a student/parent to prove non-filing status.

Verification Forms and Worksheets

Verification may also require documentation of non-taxable income, information on household size, the number of people in the household in college, etc. The Student Services Office will notify students of the specific forms, worksheets and documentation that will be required in order to complete verification.

Deadline Dates for Verification

All applicants for whom the College has received a valid Student Aid Report (SAR or ISIR) while the student was enrolled must submit all required documentation by the deadline date. The deadline date for completing the verification process is no later than 120 days after the students last day of enrollment for the award year or August 31st (at the end of the award year), whichever is the earlier date. Students who complete verification while enrolled and attending classes will be reviewed for all types of aid eligibility. Students completing verification after ceasing enrollment can generally only be considered for any Pell Grant funds they may be eligible for. Any applicant who does not complete the verification process by the deadline date will forfeit all right to payment.

Required Documents for Verification

When a FAFSA is selected for verification by the U.S. Dept. of Education, the Student Services Office will be informed of the documentation and forms that will be required of the student and/or parent in order to complete the verification process. These requirements may vary by student. Verification of the following information may be required:

All applicants selected:

- Household size
- Number enrolled in college

**Notification to Student of Required Documentation of Verification**

When a student’s financial aid application has been selected for verification, the student will be informed by mail and/or email in a timely manner what documentation is needed to satisfy the verification requirements. The student will be sent a tracking letter by mail informing him/her that the FAFSA data has been received. The student will be instructed in the letter of any outstanding verification requirements known at that time.
IRS Data Retrieval and IRS Tax Return Transcripts

Students and/or parents who filed federal tax returns will be required to use the FAFSA IRS Data Retrieval or IRS Tax Return Transcript options for verification. Photocopies of parent/student tax returns cannot be accepted for verification. The first preference is for students and parents to use the IRS Data Retrieval option. If a student/parent is not able to use or is not eligible to use the IRS Data Retrieval, he/she will need to request an IRS Tax Return Transcript directly from the IRS.

A student or parent who filed an amended federal tax return or was/is a victim of identity theft should contact the Student Services Office for assistance.

Notification to Student of Results of Verification

If as a result of verification, there are no errors discovered the College will award the federal financial aid for which the student is eligible. The student will be sent an email instructing them to log into his/her E-services account to review his/her award letter. If errors are discovered as a result of verification, the College will make the necessary corrections. The student will be sent an email instructing him/her to log into his/her E-services account to review his/her revised eligibility.

Office of Inspector General Referrals

The College must refer to the Department's Office of Inspector General (OIG) any credible information indicating that an applicant for Federal Student Aid may have engaged in fraud or other criminal misconduct in connection with his/her application. Common misconduct includes false claims of independent student status, false claims of citizenship, use of false identities, forgery of signatures of certifications, and false statements of income. Suspected intent on the part of a student to commit fraud will be reported to the OIG by phoning 1-800-MIS-USED.
